## TIGHTER MEASURES More stringent safe management measures have kicked in at bus interchanges to minimise the spread of Covid-19.

- Dining and rest areas will be segregated.
- Only one staff member per table allowed in dine-in areas.

- Members of the public can no longer dine in at the canteens in bus interchanges. They can still buy food to go.

- The more than 11,000 bus drivers and staff manning bus interchanges will have to go through weekly routine testing.

- The smoking corner has been partitioned by physical barriers.
- No talking is allowed while smoking.

- The frequency of the cleaning of high-touch points (left) has been doubled to once every hour.
- By next week, all enclosed working areas at bus interchanges will be installed with air purifiers.
