4. Please refer to the Annexes and MOH's daily Situation Report (www.moh.gov.sg/covid-19/situation-report) for details.

5. Epidemiological investigations are in progress. In the meantime, all the identified close contacts of the cases have been isolated and placed on quarantine, and will be tested at the start and end of their quarantine period so that we can detect asymptomatic cases. We will also conduct serological tests for the close contacts to determine if the cases could have been infected by them.

6. MOH has been monitoring existing clusters for any further transmission. As there have been no more cases linked to the Case 63446 cluster for the past two incubation periods (i.e. 28 days), the cluster has now been closed.

Update on condition of confirmed cases

7. 14 more cases of COVID-19 infection have been discharged from hospitals or community isolation facilities. In all, 62,195 have fully recovered from the infection and have been discharged from hospitals or community care facilities.

8. There are currently 148 confirmed cases who are still in hospital. Of these, most are stable or improving, and 4 are in critical condition in the intensive care unit. 165 are isolated and cared for at community facilities. These are those who have mild symptoms, or are clinically well but still test positive for COVID-19. 36 have passed away from complications due to COVID-19 infection.

Those who had been identified as close contacts of confirmed cases would already have been notified by MOH.

As a precautionary measure, persons who had been at these locations during the specified timings should monitor their health closely for 14 days from their date of visit. They should see a doctor promptly if they develop symptoms of acute respiratory infection (such as cough, sore throat and runny nose), as well as fever and loss of taste or smell, and inform the doctor of their exposure history.

Individuals may access the SafeEntry Location Matching Self-Check service via the TraceTogether App or at <https://wereyouthere.safeentry.gov.sg> to check whether they were at these locations during the specified timings, based on their own SafeEntry records.

There is no need to avoid places where confirmed cases of COVID-19 have been. The National Environment Agency will engage the management of affected premises to provide guidance on cleaning and disinfection.
