

FOR IMMEDIATE RELEASE

UPDATE ON LOCAL COVID-19 SITUATION

As of 5 July 2021, 12pm, the Ministry of Health (MOH) has confirmed and verified that there are 6 cases of locally transmitted COVID-19 infection. 4 are linked to previous cases, and have already been placed on quarantine. 2 are currently unlinked. There are 7 imported cases, who have already been placed on Stay-Home Notice (SHN) or isolated upon arrival in Singapore. 5 were detected upon arrival in Singapore, while 2 developed the illness during SHN or isolation. In total, there are 13 new cases of COVID-19 infection in Singapore today.

Summary of trends for local cases

2. Overall, the number of new cases in the community has decreased from 86 cases in the week before to 28 cases in the past week. The number of unlinked cases in the community has also decreased from 14 cases in the week before to 4 cases in the past week. The 7-day moving average number of all linked community cases and all unlinked community cases are 3.4 and 0.6 respectively.

Active clusters under monitoring

4. There is 1 new cluster (Case 64388 cluster) today. In total, there are currently 24 active clusters, ranging between 3 and 93 infections. MOH has been monitoring existing clusters for any further transmission. As there have been no more cases linked to the MINDSville@Napiri cluster for the past two incubation periods (i.e. 28 days), the cluster has now been closed.

6. There is continuing evidence that vaccination helps to prevent serious disease when one gets infected. Over the last 28 days, 23 local cases required oxygen supplementation, were admitted to ICU or passed away. 20 are unvaccinated, 3 are partially vaccinated and none was fully vaccinated.
